(Incorporated in Bermuda with limited liability)

INTERIM RESULTS FOR THE SIX MONTHS ENDED 30TH SEPTEMBER 2003

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (“THE STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM. The principal means of information dissemination on GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website at www.hkgem.com in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors of iSteelAsia Holdings Limited (“the Directors”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of the Stock Exchange (“the GEM Listing Rules”) for the purpose of giving information with regard to iSteelAsia Holdings Limited. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

HIGHLIGHTS

Turnover

For the half year, sales revenue already exceeded last annual turnover, with an increase of 138% to approximately HK\$813 million for the six months ended 30th September 2003 by comparing the results in the same period last year.

(Loss)/Profit attributable to shareholders

The iSteelAsia Group only achieved an operating profit before finance cost of approximately HK\$359,000 for the six months ended 30th September 2003. This represents a decrease of 97% by comparing the results in the same period last year. As such, the Group recorded a net loss attributable to shareholders of approximately HK\$3,526,000 against a profit attributable to shareholders of approximately HK\$6,783,000 for the six months ended 30th September 2002. The erosion of operating profit was mainly due to the outbreak of SARS in the areas of Beijing and Tianjin.

Operating Cost

Operating Cost to turnover ratio had decreased from 5.80% in early 2002 and stabilised at around 2%, reflecting the Group's successful efforts in optimising its resources for economy of scale to achieve business growth.

RESULTS

The Board of Directors of iSteelAsia Holdings Limited (“the Company” or “iSteelAsia”) has the pleasure of presenting the unaudited consolidated financial statements of the Company and its subsidiaries (together “the Group” or “iSteelAsia Group”) for the six months and three months ended 30th September 2003 together with the comparative unaudited figures for the corresponding periods in 2002, as follows:

Notes:

1. Basis of preparation and accounting policies

The unaudited condensed consolidated accounts have been prepared in accordance with accounting principles generally accepted in Hong Kong and comply with accounting standards issued by the Hong Kong Society of Accountants (“HKSA”).

The unaudited condensed consolidated accounts should be read in conjunction with the 2003 annual accounts.

The accounting policies and methods of computation used in the preparation of these accounts are consistent with those used in the annual accounts for the year ended 31st March 2003 except that the Group has changed its accounting policy with respect to deferred taxation following the adoption of Statement of Standard Accounting Practice Number 12: Income Taxes (“SSAP12”), issued by HKSA, which is effective for accounting periods commencing on or after 1st January 2003.

In prior year, deferred taxation was provided for at the current taxation rate in respect of significant timing differences between profit as computed for taxation purposes and profit as stated in the accounts to the extent that a liability or an asset was expected to be payable or recoverable in the foreseeable future. Under the SSAP12 (revised) deferred taxation is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the accounts. Taxation rates enacted or substantively enacted by the balance sheet date are used to determine deferred taxation. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

The adoption of the SSAP12 (revised) represents a change in accounting policy, which has been applied retrospectively so that the comparative figures presented have been restated to conform to the changed policy. The adoption of the SSAP12 (revised) has no significant effect on the Group’s results for the current or prior accounting periods.

2. Principles of consolidation

The unaudited consolidated financial statements include the accounts of the iSteelAsia Group. Results of subsidiaries acquired or disposed of during the period are included in the unaudited consolidated financial statements from or to their effective dates of acquisition or disposal. Significant intra-group transactions and balances have been eliminated on consolidation.

3. Turnover and segment information

Turnover represents (i) the net invoiced value of merchandise sold after allowances for returns and discounts and (ii) commission from procurement and online steel trading services.

The primary segment is defined by major product and operational unit, while the secondary segment is defined by geographical locations.

a. *Primary segment*

The iSteelAsia Group is organised into three major business segments — steel trading, procurement services and investment holding. The steel trading business segment derives revenue from sale of merchandise. The procurement services business segment derives commission income from procurement and online steel trading services. The investment holding business segment derives revenue from dividend income. An analysis by business segments is as follows:

	For the six months ended 30th September

b. *Secondary segment*

The iSteelAsia Group's activities are conducted predominantly in Hong Kong and Mainland China. Turnover by geographical segments is determined on the basis of the destination of shipment of merchandise, location of service performed for procurement services and location of sellers for online commission income. An analysis by geographical segment is as follows:

	For the six months ended 30th September

The Company is exempted from taxation in Bermuda until 2016. No provision for Hong Kong profits tax has been provided as the Group had no assessable profit during the six months and three months ended 30th September 2003 (2002: Nil). Subsidiaries established in Mainland China are subject to Mainland China enterprise income tax at the rates ranging from 15% to 33% (2002: 15% to 33%).

5. (Loss)/Earnings per share

The calculations of basic (loss)/earnings per share for the six months and three months ended 30th September 2003 were based on the unaudited consolidated loss attributable to shareholders of approximately HK\$3,526,000 (2002: profit of HK\$6,783,000) and HK\$4,151,000 (2002: profit of HK\$3,514,000) respectively and on the weighted average number of 1,564,679,987 (2002: 1,564,500,000) shares and 1,564,855,051 (2002: 1,564,500,000) shares in issue during the six months and three months ended 30th September 2003 respectively.

No diluted loss per share for the six months and three months ended 30th September 2003 is presented as the outstanding warrants and employee share options were anti-dilutive. The calculations of diluted earnings per share for the six months and three months ended 30th September 2002 were based on the unaudited consolidated profit attributable to shareholders of approximately HK\$6,783,000 and HK\$3,514,000 respectively and on the weighted average number of 1,594,422,131 and 1,616,650,000 shares, being the weighted average number of shares outstanding during the periods respectively, adjusted for the efforts of all dilutive potential shares of 29,922,131 and 52,150,000 shares in respect of outstanding warrants respectively.

6. Dividends

The Directors do not recommend the payment of an interim dividend for the six months ended 30th September 2003.

7. Accounts and bills receivable

Accounts and bills receivable (consolidated) consisted of:

BUSINESS REVIEW

Financial and Business Performance

The iSteelAsia Group continued its trend of business growth in its first half of fiscal year 2003/04. For the half year, sales revenue already exceeded last annual turnover, with an increase of 138% to approximately HK\$813 million for the six months ended 30th September 2003 by comparing with the results in the same period last year. This increase is attributable to the strong demands in the China steel market. This is also a testimony of the Group's investment into the development of the sales infrastructure with deep market coverage and a reflection of the huge potential of the China steel market. Despite the increase in turnover, the Group only achieved an operating profit before finance cost of approximately HK\$359,000 for the six months ended 30th September 2003. This represents a decrease of 97% by comparing the results in the same period last year. As such, the Group recorded a net loss attributable to shareholders of approximately HK\$3,526,000 against a profit attributable to shareholders of approximately HK\$6,783,000 for the six months ended 30th September 2002. This result is disappointing, and the management had made efforts to investigate the cause. During the period under review, the operating environments, especially in Beijing and Tianjin were severely affected by the epidemics of SARS in a manner significantly worse than the management's expectation. Business activities and demands in these cities halted and dropped to near zero due to the inter-city quarantine restrictions, and in turn adversely affected the market prices and also customer demands of our steel products which induced an inventory stock-up as customers were refraining from doing business. Although numerous efforts were used to try to get the customers to honour their contracts, the results were disappointing. The Beijing and Tianjing offices, operate as distributor which sell to the local trading houses instead of "end users" or manufacturers. As such, the customers' demands of these two offices were highly volatile and under the SARS epidemic period were dropped to a marginal level. As we have mentioned in our 1st quarter report dated 14th August 2003, this has eroded the gross margin of the Group to a great extent as we have to incur extra delivery costs in transporting inventories from these affected areas to other less severely affected or unaffected areas to maintain the inventory turnover rate and liquidity of the Group. Although the Group was encouraged by the united efforts exerted by each office under such difficult situation to minimise losses, the erosion in gross margins inevitably caused a very material hit to the Group's profitability. Inevitably, the temporary yet detrimental business environment for Beijing and Tianjin offices had so adversely impacted the Group that it dragged the whole's Group's profitability down. As a lesson learnt, the SARS situation had taught the management a valuable lesson in customers' selection and product and geographical diversification. The Group is currently undergoing an evaluation of its customers' base and resources allocation to upgrade the Group's responsiveness to adverse scenarios like the SARS.

Since 2002, iSteelAsia has strategically expanded its sales distribution network to cover the most densely populated cities like Beijing, Shanghai, Guangzhou, Tianjin, Shenzhen and Chongqing. These cities are well developed with the highest average annual income per capita in China. These factors translate into high demands for household appliances, estate properties and infrastructure construction, which are the key driving forces for steel consumption. The management is confident that the Group will be able to tap these market opportunities and increase the return to its shareholders in the long run. Although the results in the last six months were less than encouraging, the management believes that the impact was temporary in nature, and with major developments expected for the next few years, the Group will have the infrastructure in place to capitalise on these opportunities and benefit accordingly.

For the six months ended 30th September 2003, total cost excluding cost of inventories sold and finance cost (“Operating Cost”) was approximately HK\$18,208,000, representing an increase of 6% over the same period in last year. The increase was mainly due to extra inventory handling costs incurred by the Beijing and Tianjin offices during the period under review, as well as in normal selling and distribution expenses, which was necessary to support the rapid growth in turnover. Using turnover as a base factor, Operating Cost to turnover ratio had decreased from 5.80% in early 2002 and stabilised at around 2%, reflecting the Group’s successful efforts in optimising its resources for economy of scale to achieve business growth.

Financial Resources, Liquidity and Charges on Assets

As at 30th September 2003, the iSteelAsia Group’s aggregate short-term bank borrowings, comprising trust receipts bank loans and short-term working capital bank loans, were approximately HK\$68,165,000 (At 31st March 2003: HK\$57,134,000). The short-term working capital bank loans amounted to HK\$23,672,000 (At 31st March 2003: HK\$18,947,000) with interest rates from 4.54% to 5.84% per annum (At 31st March 2003: 5.04% to 5.84% per annum). As at 30th September 2003, the gearing ratio (short-term bank borrowings divided by shareholders’ equity) was approximately 6.55 times (At 31st March 2003: 4.28 times). As at 30th September 2003, the iSteelAsia Group had aggregate banking facilities of approximately HK\$202,490,000 (At 31st March 2003: HK\$122,540,000) from several banks for overdrafts, loans, standby letter of credit and trade financing. Unused facilities as at the same date amounted to approximately HK\$55,679,000 (At 31st March 2003: HK\$37,131,000). These facilities were secured by (a) corporate guarantees provided by iSteelAsia and/or (b) the iSteelAsia Group’s inventories held under trust receipts bank loan arrangement and/or (c) pledged cash of approximately HK\$13,554,000 (At 31st March 2003: nil).

Foreign Currency Exposure

The iSteelAsia Group’s businesses were primarily transacted in Hong Kong dollar, United States (“US”) dollar and Renminbi (“RMB”). The iSteelAsia Group’s cash and bank deposits, including pledged bank deposits, were mainly denominated in Hong Kong dollar, US dollar and RMB. The foreign currency exposure of the iSteelAsia Group is mainly driven by its business operations. The sales receipts are predominately collected in RMB and US dollar. On the other hand, the steel products purchases are mainly denominated in US dollar. The iSteelAsia Group will monitor closely the exchange rate between US dollar and RMB and will make necessary hedging arrangements to mitigate the risk arising from foreign currency fluctuation.

Employee Information

As at 30th September 2003, the iSteelAsia Group employed 95 (2002: 61) staff. Total staff costs including contribution to retirement benefit schemes incurred during the six months ended 30th September 2003 amounted to approximately HK\$8,064,000 (2002: HK\$6,905,000).

CONTINGENT LIABILITIES

As at 30th September 2003, the Company had provided guarantees of approximately HK\$181 million to banks in respect of the banking facilities granted to its subsidiaries.

COMMITMENTS

There was no material change in commitments since 31st March 2003.

OUTLOOK

Despite the results for the second quarter, the macro situation in the PRC have continuously supported the management's optimistic view about the future of the iSteelAsia Group as a major steel distributor in the PRC. The China steel market is becoming more and more important among the world steel markets. Based on published 2002's statistics, China is not only the biggest steel producer in the world, she is also the biggest steel consuming as well as steel importing country among the world players.

According to the latest statistics, China's crude steel production of September 2003 already reached approximately 160 million metric tones which was 21.64% higher than the figures in the past year. It is obvious that China has the potential.

The iSteelAsia Group will continue its path to increase the shareholders' value and operate itself as a full value-added service provider through organic growth, and if the right opportunity arises, through mergers and acquisitions or other form of cooperation. The iSteelAsia Group will also undertake rationalisation of its resources and corporate structure to achieve best operational efficiency and build a sound customers' base for future growth. For example, resources were mainly allocated to the other operating offices to continue their growth, while for Beijing and Tianjin offices, a prudent approach was taken to deplete their inventory level. This effort fuelled by the recovery of business in the two cities has helped the Group to be optimistic about the future opportunities in the Beijing and Tianjin area especially with the boom heading up to the 2008 Beijing Olympic.

On behalf of the Board of Directors, I would like to thank again our worldwide suppliers and customers for their trust and support in our products and services throughout the years. I also wish to express my sincere appreciation to our shareholders for their confidence in iSteelAsia, as well as our staff for their dedication and diligence.

Upon termination of the Old Scheme, no further options were granted thereunder but in all other respects, the provisions of the Old Scheme remain in force and all options granted prior to such termination continue to be valid and exercisable in accordance therewith. A new share option scheme has been adopted by the Company since 10th June 2002 (the “New Scheme”) to replace the Old Scheme to comply with the current GEM Listing Rules requirements. Up to the date of this announcement, no options have been granted pursuant to the New Scheme. All the above-mentioned options are unlisted and represent physically settled equity derivatives.

COMPETING INTERESTS

Mr. Ralph David Oppenheimer, a non-executive Director, is the chairman and chief executive of Stemcor Holdings Limited whose business is principally engaged in the international steel trading. Mr. Andrew Cho Fai Yao and Ms. Miriam Che Li Yao are the Chairman and the Deputy Chairman of the Company, respectively, and also the chairman and the deputy chairman of VSC, respectively, and VSC is also engaged in steel trading business. The Directors believe that there is a risk that such business may compete with those of the Group. However, the Directors are also of the view that the invaluable experience of Mr. Oppenheimer, Mr. Yao and Ms. Yao in the steel industry will complement the development of the Group’s business.

Save as disclosed above, none of the Directors or the management shareholders of the Company or any of their respective associates has engaged in any business that competes or may compete with the businesses of the Group or has any other conflict of interests with the Group.

PURCHASES, SALE OR REDEMPTION OF THE COMPANY’S LISTED SECURITIES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company’s listed securities during the six months ended 30th September 2003.

CORPORATE GOVERNANCE

In the opinion of Directors, the Company had complied with the “Board Practices and Procedures” as set out in Rules 5.28 to 5.39 of the GEM Listing Rules throughout the period under review, except that the non-executive Directors are not appointed for a specific term. However, the non-executive Directors are subject to retirement by rotation and re-election at the annual general meeting in accordance with the Company’s Bye-laws.

AUDIT COMMITTEE

The Company has established an audit committee with written terms of reference based upon the guidelines recommended by the Hong Kong Society of Accountants. The duties of the audit committee include reviewing the Company’s annual reports and quarterly reviews and providing advice and comments thereon to the Board of Directors. The audit committee is also responsible for reviewing and supervising the Company’s financial reporting and internal control procedures. The audit committee comprises two independent non-executive Directors, namely Mr. Philip King Huen Ma and Mr. Kennedy Ying Ho Wong. These unaudited accounts for the six months ended 30th September 2003 of the Company now reported on have been reviewed by the Audit Committee.

On behalf of the Board of Directors,
DRINA C. YUE
Director and Chief Executive Officer
