CHAIRLADY'S STATEMENT 主席報告書

On behalf of the board of directors ("Board") of North Asia Strategic Holdings Limited ("Company"), I am pleased to present the annual report of the Company and its subsidiaries (collectively, the "Group") and its audited financial results for the financial year ended 31st March 2020 (the "year").

GENERAL OVERVIEW

Global economy has undergone a recession from worldwide lockdown started from the first quarter of 2020 after the outbreak of coronavirus in Wuhan in late 2019. It dragged down China's GDP to a negative 6.8% year on year contraction in the first quarter of 2020. The response to coronavirus were not instantaneous and contempt in certain countries that ultimately leading to pandemic. The Group had taken swift actions in this response and taken appropriate measures such as home office policy and provision of disinfection materials to staff such that the business can keep running as usual.

During the year, the Group recorded a consolidated net profit of approximately HK\$111.0 million and a consolidated revenue of approximately HK\$3,021.7 million, representing an increase of 0.7% and 26.1% from last year, respectively.

DIVISION HIGHLIGHTS

i) Hi-Tech Distribution and Services Division

During the year, the division achieved a net profit of approximately HK\$133.4 million, representing an increase of 13.8% from approximately HK\$117.2 million in last year, and a revenue of approximately HK\$2,949.5 million, representing an increase of 26.1% from approximately HK\$2,338.7 million in last year. The increase in revenue was mainly due to the fulfillment of huge unprecedented orders of SMT equipment received from a key customer that has executed strategic purchasing plan. The division also broke the revenue record in the year which was achieved by our cohort in successfully securing orders from our major customers. The division management team will continue to maintain a close partnership and collaboration with its key business partner, Fuji Corporation, a manufacturer of high precision, cutting edge technology SMT machines and other industry leading peripheral equipment suppliers and business partners. During the year, the division gained new products distributorship and had set up new regional office in Singapore to develop South East Asia markets.

本人謹代表北亞策略控股有限公司(「本公司」)董 事會(「董事會」), 欣然提呈本公司及其附屬公司 (統稱「本集團」)之年報及其截至二零二零年三月 三十一日止財政年度(「本年度」)之經審核財務業 績。

概覽

於二零一九年年底武漢爆發冠狀病毒後,世界各 地紛紛實施封關措施,導致全球經濟自二零二零 年第一季度起陷入衰退。與此同時,中國國內生 產總值亦因而備受拖累,於二零二零年第一季度 按年收縮至負6.8%。若干國家未有即時就冠狀 病毒作出對策且輕視病毒之嚴重性,最終導致疫 情大流行。本集團已就此迅速採取行動,並採取 恰當措施(如在家辦公政策及為員工提供消毒物 料),以維持業務如常運作。

於本年度,本集團錄得綜合純利約111,000,000 港元,及錄得綜合收入約3,021,700,000港元, 較去年分別增加0.7%及26.1%。

分部摘要

i) 高科技產品分銷及服務分部

於本年度,此分部取得純利約133,400,000 港元,較去年約117,200,000港元增加 13.8%, 而收入約為2,949,500,000港元, 較去年約2,338,700,000港元增加26.1%。 收入增加主要由於一名主要客戶所下達前 所未見之大額SMT設備訂單已告完成所 致,該客戶已執行策略性採購計劃。由於 我們成功取得主要客戶訂單,此分部亦於 本年度創出收入記錄。此分部之管理團隊 將一直與主要業務夥伴Fuji Corporation (一間高度精密兼具先進科技之SMT機器 製造商)及其他眾多行業領先周邊設備供應 商及業務夥伴維持緊密夥伴合作關係。於 本年度,此分部取得新產品分銷權,並已 於新加坡設立新地區辦公室,以發展東南 亞市場。

CHAIRLADY'S STATEMENT 主席報告書

ii) Leasing Division

During the year, the division recorded a net profit of approximately HK\$20.8 million on a revenue of approximately HK\$72.2 million, representing a decrease of 0.1% and an increase of 23.9% from approximately HK\$20.9 million and HK\$58.3 million respectively in last year. The increase in revenue was mainly because many customers became cautious and used operating lease arrangements to meet their production line expansion requirements as a result of the trade war between the United States and China that caused many electronic equipment manufacturers to consider moving production lines out of China or delay their capital expenditure planning. As at 31st March 2020, the aggregate carrying amount of finance lease receivables amounted to approximately HK\$192.6 million.

OUTLOOK

Although the trade war between the United States and China had achieved some progress and the first phase deal was signed in January 2020, the trade deal was put at risk as President Trump condemned China's early handling of coronavirus outbreak in Wuhan in late 2019 that ultimately causing serious death and job losses in the United States.

Under the circumstances, the world economic outlook for the coming year is full of uncertainty. Before the successful development of vaccine for coronavirus, recovery of worldwide economy may not take place and lockdown may still be the only effective measures to control of spread of infection of coronavirus.

In March 2020, the United Federal Reserve had reduced the benchmark interest rate to zero and launched US\$700 billion quantitative easing program to combat the recession driven by coronavirus. Other countries have similar quantitative easing plans or fiscal and monetary stimulus measures. Our Group will strive to monitor the global economic environment under the coronavirus pandemic and post lockdown recovery of market and will try to gain further market share of our hi-tech distribution and services division by providing better services and enhancing the marketing program.

ii) 租賃分部

於本年度,此分部錄得純利約20,800,000 港元,及錄得收入約72,200,000港元,較 去年約20,900,000港元及58,300,000港 元分別減少0.1%及增加23.9%。收入增 加主要由於中美貿易戰導致大量電子設備 製造商考慮將生產線搬離中國或擱置其資 本開支計劃,致令更多客戶變得謹慎,並 採用經營租賃安排以達致其生產線擴張需 求。於二零二零年三月三十一日,融資租 賃應收款項之賬面總值約為192,600,000 港元。

展望

儘管中美貿易戰已取得一定進展,並於二零二零 年一月簽訂第一階段協議,惟特朗普總統譴責中 國對二零一九年年底武漢爆發冠狀病毒之早期處 理方式,最終導致美國死亡病例眾多及失業問題 嚴重,令該貿易協議岌岌可危。

於有關情況下,全球經濟來年前景充滿未知之 數。環球經濟可能需待成功研發冠狀病毒疫苗後 方可實現復甦,而封關或仍為遏止冠狀病毒感染 擴散之唯一有效措施。

於二零二零年三月,美聯儲將基準利率降低至 零,並推出700,000,000,000美元之量化寬鬆計 劃,以對應冠狀病毒所引發之衰退。其他國家亦 採取類似量化寬鬆計劃或財政及貨幣刺激措施。 本集團將致力監察於冠狀病毒疫情下之全球經濟 環境及解除封關措施後之市場復甦狀況,並會透 過提供更佳服務及提升市場推廣計劃,以便於高 科技產品分銷及服務分部爭取更多市場份額。

CHAIRLADY'S STATEMENT 主席報告書

The leasing division is expected to have a moderate growth in anticipation of the growing operating lease market that we can offer flexible supply of SMT machines to our customers during the uncertain economic environment. Going forward, the Group seeks to continue to grow its business and to enhance the operational efficiency of varies business divisions with an aim to improve their profitability and increase shareholders' value.

APPRECIATION

I would like to take this opportunity to express my sincere gratitude to our business partners, our customers, the Board and our employees for their trust and support in the year. On behalf of the Board, I would also like to offer our utmost appreciation to our shareholders for their confidence in our Company. We believe our long-term investment strategy, setting operating goals, motivating our staff and sharing success with business partners will be essential elements for the Group's success. 預期租賃分部將達致適中增長,而按預測,經營 租賃市場將不斷發展,讓我們能夠於經濟環境不 明朗之情況下為客戶靈活供應SMT機器。展望 未來,本集團會繼續努力發展業務,同時亦會提 高不同業務分部之營運效率,力求改善其盈利能 力及提升股東價值。

FINANCIAL AND BUSINESS PERFORMANCE

During the year ended 31st March 2020 (the "year"), the Group recorded a consolidated revenue of approximately HK\$3,021,718,000, representing a 26.1% growth from approximately HK\$2,397,010,000 in last year. The increase in consolidated revenue was mainly due to approximately 26.1% year-on-year increase in revenue from our hi-tech distribution and services division. With the continuous effort of the Group's sales and management teams and their solid expertise in the SMT market, we successfully maintain our leading market position in the SMT industry. Besides, the Group's leasing division continued its growth and contributed a revenue of approximately HK\$72,205,000, representing an increase of 23.9% from approximately HK\$58,281,000 in last year.

During the year, the Group recorded a consolidated net profit of approximately HK\$110,976,000, representing a slight increase of 0.7% from approximately HK\$110,153,000 in last year. The Group's gross profit ratio slightly decreased from last year's 15.9% to 13.2% in this year. The consolidated net profit showed relatively lower rate of growth than the consolidated revenue mainly because the gross profit was shrunken under the keen competition in the SMT market.

Leasing division continued to play an important role in supporting the growth of the Group's business in hi-tech distribution and services division and more customers opt for leasing of machines under the adverse impact of trade war.

The Group's total operating costs increased by 13.3% from last year's approximately HK\$245,373,000 to approximately HK\$277,977,000 in this year. The increase in operating costs was mainly due to the recognition of share option expenses of approximately HK\$3,433,000 in Group's staff costs, impairment of trade receivables of approximately HK\$1,575,000 and foreign exchange loss of approximately HK\$18,485,000. Since the Group's management team has implemented effective cost control, the total operating cost to the Group's revenue ratio decreased from last year's 10.2% to 9.2% in this year.

During the year, the Group recorded basic earnings per share of approximately HK40.7 cents, representing 0.7% increase from HK40.4 cents in last year.

Below is a summary of the financial and business highlights of our business divisions. The profit/loss figures, disclosed below, do not include any intra-group sales and charges, as they are eliminated upon consolidation.

財務及業務表現

截至二零二零年三月三十一日止年度(「本年 度」),本集團錄得綜合收入約3,021,718,000港 元,較去年約2,397,010,000港元增加26.1%。 綜合收入增加主要受高科技產品分銷及服務分部 之收入按年增加約26.1%所帶動。憑藉本集團 銷售及管理團隊持續努力不懈及其對SMT市場 穩紮之專業知識,我們成功維持我們於SMT行 業之領先市場地位。此外,本集團之租賃分部繼 續增長,並錄得收入約72,205,000港元,較去 年約58,281,000港元增加23.9%。

於本年度,本集團錄得綜合純利約110,976,000 港元,較去年約110,153,000港元輕微增加 0.7%。本集團之毛利率由去年15.9%輕微減少 至本年度13.2%。與綜合收入相比,綜合純利錄 得相對較低之增幅,主要由於在SMT市場競爭 激烈之情況下毛利收縮所致。

租賃分部繼續擔當重要角色,以支持本集團於高 科技產品分銷及服務分部取得業務增長,且於貿 易戰之不利影響下,更多客戶選擇租賃機器。

本集團之經營成本總額由去年約245,373,000港 元增加13.3%至本年度約277,977,000港元。 經營成本總額增加主要由於在本集團員工成本確 認購股權開支約3,433,000港元、貿易應收款項 減值約1,575,000港元及外匯虧損約18,485,000 港元所致。由於本集團管理團隊實行有效成本控 制,經營成本總額與本集團收入之比率由去年 10.2%減少至本年度9.2%。

於本年度,本集團錄得每股基本盈利約40.7港 仙,較去年40.4港仙增加0.7%。

以下為我們業務分部之財務及業務摘要。由於集 團內公司間之銷售及費用已於綜合賬目時對銷, 故以下披露之溢利/虧損數字並不包括任何該等 款項。

高科技產品分銷及服務分部

本集團透過其全資附屬公司美亞電子科技有限公 司(「美亞科技」)經營高科技產品分銷及服務業 務。美亞科技為亞洲SMT設備、半導體製造設 備及製造過程控制軟件之分銷、銷售及服務業務 之領導者,為高科技行業之客戶提供服務逾30 年。美亞科技之團隊由逾230名工程師及客戶服 務員工組成,分佈於中國、東南亞、越南及印度 逾25個城市。客戶包括全球大部分主要電訊及 電子設備製造商。隨着中國製造商不斷增加,美 亞科技具備之條件尤為有利。其供應商包括來自 亞洲、美國及歐洲之領先設備及解決方案製造 商。

於本年度,此分部錄得收入約2,949,513,000港 元,較去年約2,338,729,000港元增加26.1%。 收入增加主要由於一名主要客戶所下達前所未見 之大額SMT設備訂單已告完成所致,該客戶已 執行策略性採購計劃,以應對中美貿易戰對製造 業所造成突如其來之變動。

於本年度,此分部之直接機器銷售約為 2,828,013,000港元,較去年約2,177,417,000 港元增加29.9%。收入增加主要由於一名主要客 戶所下達前所未見之大額SMT設備訂單已告完 成所致,該客戶已執行策略性採購計劃,以應對 中美貿易戰對製造業所造成突如其來之變動。此 分部之零部件銷售及軟件銷售約為85,342,000 港元,較去年約94,556,000港元減少9.7%。 然而,此分部之佣金及其他服務收入錄得約 36,158,000港元,較去年約66,756,000港元減 少45.8%。佣金及其他服務收入減少主要由於我 們其中一名本地主要客戶於去年為其新智能手機 生產廠房而下達大額佣金訂單,而今年並無再下 達訂單所致。

During the year, the division recorded a net profit of approximately HK\$133,381,000, representing an increase of 13.8% from approximately HK\$117,253,000 in last year. AMT's management has taken various measures to maintain operating cost efficiency and has achieved expected profitability despite an increasing challenging market.

OUTLOOK

Overall Summary

The coronavirus pandemic creates unprecedent uncertainty to world economy. The health crisis is inflicting high and rising human costs worldwide. The virus containment policy of lockdowns in combating the coronavirus pandemic has severely impacted on economic activities. According to April 2020 Economic Outlook, International Monetary Fund ("IMF") projected that the global economy will contract sharply by 3% in 2020 against a growth of 2.9% in 2019 based on optimistic assumptions that the pandemic fades in the second half of 2020 and containment efforts can be gradually unwound. Generally, the management expects the economy outlook for the coming year is worsening. The main challenge is the recovery of economy after the release from lockdown. As we have seen the cutting of electronic products and smartphone orders in 2020 due to coronavirus lockdown, the smartphone manufacturers in China also delayed or reduced its production line expansion schedule. As such, we expect the SMT machinery demand will be reduced in the forthcoming quarters. In long run, the upgrade from 4G to 5G telecom network offers an opportunity for SMT industry in the coming years following the wide range upgrade of mobile devices and telecom station equipment. Some of our major customers are leading telecommunication companies in China which will play a vital role in the 5G transformation and provide immense opportunities to the SMT industry and we will embrace the 5G transformation opportunities and continue to manage cash, cost and risks and, to build our strength by working with our management teams to improve capability and efficiency.

Hi-Tech Distribution and Services Division

There is hope after coronavirus pandemic that the pandemic can act as a driver for technological advancement. People see the advantage of adopting 5G technology in changing their way of living and working. The fast 5G internet connectivity enable remote working by virtual meetings and conference.

展望

整體摘要

冠狀病毒大流行令全球經濟陷入不明朗局面,情 況前所未見。健康危機對全球人類造成高昂代 價,損失亦與日俱增。因應對抗冠狀病毒疫情而 實施之病毒防控封鎖政策已嚴重影響經濟活動。 根據二零二零年四月《世界經濟展望》,國際貨幣 基金組織(「國際貨幣基金組織」)預測全球經濟將 於二零二零年鋭減3%,而於二零一九年則增長 2.9%,有關預測乃基於樂觀情況作出,當中假 設疫情將於二零二零年下半年消退,而防控措施 可以逐步解除。綜觀而言,管理層預期來年經濟 前景將轉趨惡劣。解除封關措施後,如何復甦經 濟構成一大挑戰。於二零二零年,我們之電子產 品及智能手機訂單因冠狀病毒封關措施而有所減 少,中國智能手機製造商亦已延遲落實或縮短其 生產線擴展時間表。因此,我們預期下一季度之 SMT機器需求將有所下降。長遠而言,隨著流 動設備及電信站設備廣泛升級,由4G升級至5G 電訊網絡將於未來年度為SMT行業提供機遇。 我們若干主要客戶為中國領先電訊公司,並將於 5G轉型中擔當重要角色,為SMT行業提供龐大 機遇。我們將把握5G轉型帶來之機遇,並繼續 管理現金、成本及風險,以及透過與我們之管理 團隊合作提高我們之能力及效率,從而增強我們 之實力。

高科技產品分銷及服務分部

冠狀病毒疫情過後將見曙光,而疫情可推動科技發展。人們改變其生活及工作方式時見證採納 5G科技之優勢。快速5G互聯網連結容讓透過虛擬會面及會議遙距工作。

Smartphone market, major market for our customers, as expected, was significantly impacted by the pandemic. Per preliminary data from the International Data Corporation (IDC) Worldwide Quarterly Mobile Phone Tracker, the worldwide smartphone shipments decreased by 11.7% year-on-year in the first quarter of 2020. The largest decline region was China, representing 20.3% year-on-year. Continuous lockdown and closures of retail shops across the globe had frozen the shortterm smartphone demand but hopefully a rebound in future demand on smartphones is expected after the coronavirus pandemic.

On China 5G base station market, another major market for our customers, which is certain that the pandemic slows down the speed of 5G base station installation in 2020. However, after successful containing the coronavirus in the first four months, China will speed up 5G deployment. Per MobileWorldLive Intelligence Brief on 20th March 2020, China Unicom and China Telecom targeted to build altogether 250,000 5G base stations in the third quarter 2020, earlier than their original plan.

We will continue to monitor the latest development and work closely with our partners to come up with more competitive and innovative solutions and invest in our service and support infrastructure and systems so as to attain total customer satisfaction and customer retention. At the same time, we will also closely monitor our working capital, gross profit margin, operating cost and industry developments with a view to maintain our cash flow and profitability, as well as the long-term sustainability and growth of our business.

Leasing Division

Coronavirus has spread across the world with significant negative impact on the leasing business, especially the finance lease business. Against the backdrop of uncontrollable threat of epidemic haunting the world and uncertain future outlook, the customers have adopted a more conservative investment strategy. 誠如我們所預計,智能手機市場(我們客戶之主 要市場)受疫情嚴重影響。根據國際數據資訊 (IDC)全球季度手提電話追蹤報告之初步數據, 全球智能手機付運量於二零二零年第一季度按年 下跌11.7%。最大減幅地區為中國,按年減少 20.3%。全球持續實施封關措施及關閉零售店已 凍結短期智能手機需求,惟盼智能手機未來需求 將於冠狀病毒疫情後回升。

於中國5G基站市場(我們客戶之另一主要市 場),疫情明顯於二零二零年減慢5G基站安裝 速度。然而,於首四個月成功控制冠狀病毒疫情 後,中國將加快5G部署。根據二零二零年三月 二十日之MobileWorldLive Intelligence Brief, 中國聯通及中國電信以於二零二零年第三季度設 立合共250,000個5G基站為目標,較其原定計 劃早。

我們將繼續留意最新發展,並與合作夥伴緊密合 作,整合出具競爭力之創新解決方案,且投資於 我們之服務以及支持基礎建設及系統,務求讓客 戶稱心滿意及挽留客戶。同時,我們亦將繼續密 切監察我們之營運資金、毛利率、營運成本及行 業發展,以維持現金流量、盈利能力以及本集團 業務之長遠可持續經營能力及增長。

租賃分部

冠狀病毒於全球蔓延對租賃業務有明顯的負面影響,特別是融資租賃業務,客戶在全球疫情未受 控制及未來前景不明的情況下,均採取更為保守 的投資策略。

Nevertheless, with the epidemic gradually under control in the Greater China regions and full operation and production resumption in China, the enterprises engaged in the leasing industry can enjoy the corresponding benefits mainly in the following aspects: new demand for certain electronics brought about by the growth in medical and protective equipment; enhanced demand for computer and gaming electronics due to quarantine measures; temporary transfer of certain orders from foreign to domestic production led by the anti-epidemic and quarantine measures implemented by overseas countries. These combined factors have partially offset the adverse impacts from the substantial decrease in the demand for consumer electronics, including smartphones, and industrial electronics in terms of security and lighting, as well as the negative impacts of China-US comprehensive confrontation on the demand for semiconductor and trading products.

We consider that despite the considerable uncertainties over the epidemic and economic outlook, as an equipment leasing company that can promptly respond to urgent order request, we can still see plenty of business opportunities. Besides, it is not envisaged that the results of the leasing business will fluctuate significantly in the coming year.

Leveraging on the Group's platforms in Hong Kong and Singapore, extensive industry experiences as well as high efficiency in resources integration and project execution capabilities of the leasing team, we consider that for operating lease business, we can maintain a relatively excellent operations with the development focus on SMT equipment in the coming year; and for finance lease division, we will closely monitor the international situation, market development and foreign policy adjustments, in order to capture suitable business opportunities in semiconductor and other industries. 但隨著大中華區疫情的有效控制以及中國國內的 全面復工、復產,對經營租賃行業也有相對利好 的影響,其主要體現在:醫療防疫設備的增長帶 來一些新的電子產品需求;隔離措施促進了電腦 及遊戲類電子產品的需求;國外的防疫隔離措施 導致一些國外工廠訂單短期轉移到國內生產。這 些因素綜合起來,部分抵銷了手提電話等消費電 子產品以及安防、照明等工業電子產品需求大幅 鬱縮的負面影響,以及中美全面對抗帶來的半導 體、貿易等產品需求的負面影響。

我們認為,雖然疫情和經濟前景都非常不明朗, 但作為能快速應對緊急訂單需求的設備租賃公 司,可説是充滿商機。預期來年租賃業務不會出 現太大的業績波動。

憑藉本集團於香港及新加坡的平台以及豐富的行 業經驗,以及租賃團隊的高效資源整合和項目 執行能力。我們認為,在來年我們重點開發的 SMT設備的經營租賃業務可以維持較好的營運 狀態;融資租賃方面,我們也會密切關注國際形 勢、市場變化及各國的政策調整,以捕捉半導體 等行業的合適業務機會。

Fair value of share options and assumptions

購股權之公允值及假設

授予董事、主要股東及僱員之購股權之公允值乃 按二項式模式釐定。該模式之輸入數據及已授購 股權總額之公允值如下:

		Date of grant		
		授出	日期	
		16th August 2017	26th June 2019	
		二零一七年	二零一九年	
		八月十六日	六月二十六日	
Expected dividend yield (%)	預期股息收益率(%)	0.000	0.000	
Expected volatility (%)	預期波幅(%)	79.012	74.808	
Risk-free interest rate (%)	無風險利率(%)	2.030	1.830	
Expected life of share options (year)	預期購股權年期(年)	10.000	10.000	
Fair value of the total share options granted	已授購股權總額之公允值	HK\$4,684,000港元	HK\$3,433,000港元	

The binomial model is a generally accepted method of valuing share options. The significant assumptions used in the calculation of the values of the share options were risk-free interest rate, expected life of share options, expected volatility and expected dividend yield. The measurement date used in the valuation model was the date on which the share options were granted.

The values of share options determined using the binomial model are subject to certain fundamental limitations, due to the subjective nature of and uncertainty relating to a number of assumptions of the expected future performance input to the model, and certain inherent limitations of the model itself. The value of the share option varies with different variables of certain subjective assumptions. Any change to the variables used may materially affect the estimation of the fair value of the share option. 二項式模式被普遍採納為對購股權進行估值之方 法。計算購股權之價值時所採用之重大假設為無 風險利率、預期購股權年期、預期波幅及預期股 息收益率。估值模式所使用之計量日期為授出購 股權之日期。

基於就輸入模式之預計日後表現所作出多個假設 之主觀性質及不明朗因素,使用二項式模式釐定 之購股權價值須受若干基本限制之規限,而模式 本身亦具若干內在限制。上述購股權價值隨若干 主觀假設之不同變量而定,所採用變量任何變動 或會對購股權公允值之估計造成重大影響。

KEY AUDIT MATTERS

Key audit matter

How our audit addressed the key audit matter

Expected credit loss ("ECL") for trade receivables and finance lease receivables

As at 31st March 2020, the Group had trade receivables and finance lease receivables with carrying amounts of approximately HK\$298.1 million and HK\$192.6 million, respectively.

HKFRS 9 *Financial Instruments* requires the use of the ECL model for the estimation of loss allowances of financial assets.

Management uses the simplified approach and general approach to calculate ECL for trade receivables and finance lease receivables, respectively.

Management has engaged an independent specialist to determine the ECL.

We focused on this area because significant management judgements and estimates were involved in determining the ECL with reference to historical loss record and forwardlooking information.

Disclosures in relation to trade receivables and finance lease receivables are included in notes 4 and 16 to the consolidated financial statements. We obtained an understanding of the Group's credit risk management and practices, and evaluated whether the Group's assessment of the ECL allowance is in accordance with the requirements of HKFRS 9, including an evaluation of management judgements on (i) the level of disaggregation of categories for collective assessment; and (ii) the use of available credit risk information, including historical and forward-looking information.

We obtained and reviewed the ECL calculation prepared by management which was based on the Group's historical credit loss experience and, with the aid of the external specialist, adjusted for forward-looking factors specific to the debtors and the economic environment.

We assessed the competence, objectivity and independence of the external specialist engaged by the management of the Group. 致北亞策略控股有限公司股東

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

核數師就審計綜合財務報表承擔的責任

我們的目標,是對綜合財務報表整體是否不存在 由於欺詐或錯誤而導致的重大錯誤陳述取得合理 保證,並出具包括我們意見的核數師報告。我們 按照百慕達一九八一年《公司法》第九十條僅向 閣下(作為整體)報告,除此以外,本報告並無其 他用途。我們不會就本報告的內容向任何其他人 士負上或承擔任何責任。

合理保證是高水平的保證,但不能保證按照《香 港審計準則》進行的審計,在某一重大錯誤陳述 存在時總能發現。錯誤陳述可以由欺詐或錯誤引 起,如果合理預期它們單獨或滙總起來可能影響 綜合財務報表使用者依賴綜合財務報表所作出的 經濟決定,則有關的錯誤陳述可被視作重大。

在根據《香港審計準則》進行審計的過程中,我 們運用了專業判斷,保持了專業懷疑態度。我們 亦:

- 識別和評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險、設計及執行審計程序以應對這些風險,以及獲取充足和適當的審計憑證,作為我們意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述,或凌駕於內部控制之上,因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 瞭解與審計相關的內部控制,以設計適當 的審計程序,但目的並非對 貴集團內部 控制的有效性發表意見。
- 評價董事所採用會計政策的恰當性及作出 會計估計和相關披露的合理性。

To the shareholders of North Asia Strategic Holdings Limited (Incorporated in Bermuda with limited liability)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Chow Chi Chung.

They have been prepared under the historical cost convention, except for financial assets at fair value through profit or loss, which have been measured at fair value.

These financial statements are presented in Hong Kong dollars ("HK\$") and all values are rounded to the nearest thousand except when otherwise indicated.

2.1 編製基準

此等財務報表乃根據香港會計師公 會(「香港會計師公會」)頒佈之香 港財務報告準則(「香港財務報告準 則」)(包括所有香港財務報告準則、 香港會計準則(「香港會計準則」)及 詮釋)、香港公認會計原則及香港公 司條例之披露規定編製。除按公允 值計入損益之金融資產(以公允值計 量)外,此等財務報表已根據歷史成 本慣例編製。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Changes in accounting policies and disclosures (continued)

Except for the amendments to HKFRS 9, HKAS 19, HKAS 28 and *Annual Improvements to HKFRSs 2015-2017 Cycle*, which are not relevant to the preparation of the Group's financial statements, the nature and the impact of the new and revised HKFRSs are described below:

HKFRS 16 replaces HKAS 17 Leases, HK(IFRIC)-(a) Int 4 Determining whether an Arrangement contains a Lease, HK(SIC)-Int 15 Operating Leases - Incentives and HK(SIC)-Int 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model to recognise and measure right-of-use assets and lease liabilities, except for certain recognition exemptions. Lessor accounting under HKFRS 16 is substantially unchanged from HKAS 17. Lessors continue to classify leases as either operating or finance leases using similar principles as in HKAS 17. Therefore, HKFRS 16 did not have any financial impact on leases where the Group is the lessor.

The Group adopted HKFRS 16 using the modified retrospective method of adoption with the date of initial application of 1st April 2019. Under this method, the standard has been applied retrospectively with the cumulative effect of initial adoption as an adjustment to the opening balance of accumulated losses at 1st April 2019, and the comparative information for 2019 was not restated and continued to be reported under HKAS 17 and related interpretations.

2. 重大會計政策概要(續)

2.2 會計政策及披露事項之變動(續)

除香港財務報告準則第9號、香港會 計準則第19號、香港會計準則第28 號修訂本及二零一五年至二零一七 年週期之香港財務報告準則年度改 進項目與編製本集團財務報表無關 外,新訂及經修訂香港財務報告準 則之性質及影響説明如下:

(a) 香港財務報告準則第16號取 代香港會計準則第17號租 f、香港(國際財務報告詮釋 委員會) — 詮釋第4號釐定安 *排是否包括租賃、*香港(準則 詮釋委員會) 一 詮釋第15 號 經營租賃 — 優惠及香港(準 則詮釋委員會) — 詮釋第27 號評估涉及租賃法律形式交易 的内容。該準則載列確認、計 量、呈報及披露租賃之原則, 並要求承租人在單一資產負債 表模式中計算所有租賃,以確 認及計量使用權資產及租賃負 **債**,惟若干確認豁免除外。香 港財務報告準則第16號大致 沿用香港會計準則第17號內 出租人之會計處理方式。出租 人繼續使用與香港會計準則第 17號類似之原則將租賃分類為 經營租賃或融資租賃。因此, 香港財務報告準則第16號對 本集團(作為出租人)之租賃並 無任何財務影響。 本集團使用經修訂追溯法採納

本案留反用經修訂起為公採納 香港財務報告準則第16號, 首次應用日期為二零一九年 四月一日。根據該方法,該準 則已獲追溯應用,並將首次採 納之累計影響確認為對於二零 一九年四月一日累計虧損年初 結餘之調整,且二零一九年比 較資料並無重列,並繼續根據 香港會計準則第17號及相關 詮釋呈報。

New definition of a lease

Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 at the date of initial application. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-Int 4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1st April 2019.

租賃之新定義

根據香港財務報告準則第16 號,倘合約為換取代價而給予 在若干時段內控制使用已識別 資產之權利,則該合約為租賃 或包含租賃。當客戶有權從使 用已識別資產獲得絕大部分經 濟利益以及直接指示使用已識 別資產時,即有控制權。本集 團選擇使用過渡性實際權宜方 法,以允許該準則僅適用於先 前已於首次應用日期根據香港 會計準則第17號及香港(國際 財務報告詮釋委員會) — 詮釋 第4號識別為租賃之合約。根 據香港會計準則第17號及香 港(國際財務報告詮釋委員會) 一 詮釋第4號並非識別為租賃 之合約並無重新評估。因此, 香港財務報告準則第16號項 下之租賃定義已僅應用於在二 零一九年四月一日或之後訂立 或更改之合約。

As a lessee — Leases previously classified as operating leases

Nature of the effect of adoption of HKFRS 16

The Group has lease contracts for its office properties and warehouses. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under HKFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low-value assets (elected on a lease-by-lease basis) and leases with a lease term of 12 months or less ("short-term leases") (elected by class of underlying asset). Instead of recognising rental expenses under operating leases on a straight-line basis over the lease term commencing from 1st April 2019, the Group recognises depreciation (and impairment, if any) of the right-of-use assets and interest accrued on the outstanding lease liabilities (as finance costs).

Impacts on transition

Lease liabilities at 1st April 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1st April 2019.

The right-of-use assets were measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1st April 2019.

作為承租人 — 先前分類為經 營租賃之租賃

採納香港財務報告準則第16 號之影響性質

本集團擁有其辦公室物業及倉 庫之租賃合約。作為承租人, 本集團先前根據有關租賃是否 將資產所有權之絕大部分回報 及風險轉移至本集團之評估, 將租賃分類為融資租賃或經營 租賃。根據香港財務報告準則 第16號,本集團採用單一方 法確認及計量所有租賃之使用 權資產及租賃負債,惟低價值 資產租賃(按個別租賃基準選 擇)及租賃期為12個月或以下 之租賃(「短期租賃」)(按相關 資產類別選擇)之兩項選擇性 豁免除外。本集團並無於二零 一九年四月一日開始之租賃期 內以直線法確認經營租賃項下 之租金開支,而是確認使用權 資產折舊(及減值(如有))及未 償還租賃負債之應計利息(為 融資成本)。

過渡影響

於二零一九年四月一日之租賃 負債按餘下租賃付款現值確 認,使用二零一九年四月一日 之增量借貸利率貼現。

使用權資產按租賃負債金額計 量,並就與緊接二零一九年四 月一日前於財務狀況表確認之 租賃相關之任何預付或應計租 賃付款金額作出調整。

As a lessee — Leases previously classified as operating leases (continued)

Impacts on transition (continued)

All these assets were assessed for any impairment based on HKAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position.

The Group has used the following elective practical expedients when applying HKFRS 16 at 1st April 2019:

- Applying the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application
- Using hindsight in determining the lease term where the contract contains options to extend/terminate the lease
- Using a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relying on its assessment of whether leases are onerous immediately before the date of initial application
- Excluding the initial direct costs from the measurement of the right-of-use asset at the date of initial application

所有該等資產於當日均已根據 香港會計準則第36號就任何 減值作出評估。本集團選擇於 財務狀況表中單獨列報使用權 資產。

於二零一九年四月一日應用香 港財務報告第16號時,本集 團已使用以下選擇性實際權宜 方法:

- 應用租賃期自首次應用
 日期起12個月內終止之
 短期租賃豁免
- 倘合約包含延期/終止 租賃之選擇權,則使用 事後方式釐定租賃期
- 對具有合理相似特徵之 租賃組合使用單一貼現 率

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Changes in accounting policies and disclosures (continued)

HK(IFRIC)-Int 23 addresses the accounting for (b) income taxes (current and deferred) when tax treatments involve uncertainty that affects the application of HKAS 12 (often referred to as "uncertain tax positions"). The interpretation does not apply to taxes or levies outside the scope of HKAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The interpretation specifically addresses (i) whether an entity considers uncertain tax treatments separately; (ii) the assumptions an entity makes about the examination of tax treatments by taxation authorities; (iii) how an entity determines taxable profits or tax losses, tax bases, unused tax losses, unused tax credits and tax rates; and (iv) how an entity considers changes in facts and circumstances. The interpretation did not have any impact on the financial position or performance of the Group.

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1st April 2020. Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

2.3 Issued but not yet effective Hong Kong Financial Reporting Standards (continued)

Amendments to HKAS 39, HKFRS 7 and HKFRS 9 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments are effective for annual periods beginning on or after 1st January 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. The Group expects to adopt the amendments prospectively from 1st April 2020. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKFRS 16 provide relief to lessees from applying HKFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic. Many lessors have provided rent concessions to lessees as a result of the covid-19 pandemic. The objective of the amendment is to provide lessees that have been granted covid-19 related rent concessions with practical relief, while still providing useful information about leases to users of the financial statements. The amendments are effective for annual periods beginning on or after 1st June 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.4 Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31st March 2020. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.4 綜合基準

倘本公司直接或間接擁有被投資對 象少於大多數之投票或類似權利, 則本集團於評估其是否對被投資對 象擁有權力時會考慮一切相關事實 及情況,包括:

- (a) 與被投資對象之其他投票持有 人之合約安排;

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.4 Basis of consolidation (continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in the statement of profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to the statement of profit or loss or accumulated losses, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of noncontrolling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

2.4 綜合基準(續)

倘有事實及情況顯示上述三項控制 因素中有一項或多項出現變動,則 本集團會重新評估其是否對被投資 對象擁有控制權。如附屬公司擁有 權權益出現變動,但未有喪失控制 權,則入賬列作權益交易。

倘本集團喪失一間附屬公司之控制 權,則其撤銷確認(i)該附屬公司之 資產(包括商譽)及負債、(ii)任何非 控制性權益之賬面值及(iii)於權益內 記錄之累計匯兑差額;及確認(i)所 收代價之公允值、(ii)任何所保留投 資之公允值及(iii)損益表內任何因此 產生之盈餘或虧絀。先前於其他全 面收益內確認之本集團應佔部分按 倘本集團直接出售相關資產或負債 而原須採用之相同基準重新分類至 損益表或累計虧損(按適用)。

業務合併及商譽

業務合併乃採用收購法入賬。所轉 撥之代價按收購日期之公允值計 量,即本集團所轉撥之資產、本集 團對被收購方原擁有人產生之負備 所發行之股權於收購日期之公允匐 標 加公允值或被收購日期之公允匐 澤值之應佔比例,計算於被收購 日以公允值或被收購到之公允 個 現時擁有權權益及賦予持 產 方 人 準 個 之所有其他部分按公允值計量。收 購 相 關成本於產生時列為開支。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.4 Basis of consolidation (continued)

Business combinations and goodwill (continued)

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in the statement of profit or loss as a gain on bargain purchase.

2.4 綜合基準(續)

業務合併及商譽(續)

當收購一項業務時,本集團會根據 於收購日期之合約條款、經濟情況 及相關狀況評估其金融資產及所承 擔負債之適當分類及指定類別。此 包括分離被收購方主合約之嵌入式 衍生工具。

倘業務合併分階段進行,早前持有 之股權將按其於收購日期之公允值 重新計量,而任何產生之盈虧將於 損益內確認。

任何將由收購方轉讓之或然代價均 於收購日期以公允值確認。獲分類 為資產或負債之或然代價將按公允 值計量,而公允值之變動將於損益 內確認。獲分類為權益之或然代價 將不會獲重新計量,而其後結算將 於權益內入賬。

商譽初次按成本計量,即已轉讓代 價、已確認非控制性權益及先前由 本集團持有之被收購方股權之公允 值總額,超過與所收購可識別資產 淨值及所承擔負債之差額。倘此代 價及其他項目之總和低於所收購資 產淨值之公允值,於重新評估後其 差額將於損益表內確認為議價收購 收益。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.4 Basis of consolidation (continued)

Business combinations and goodwill (continued)

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31st March. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cashgenerating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation of and the portion of the cashgenerating unit retained.

2.4 綜合基準(續)

業務合併及商譽(續)

於初次確認後, 商譽將以成本減任 何累計減值虧損計量。 商譽每年進 行減值測試, 倘發生任何事件或情 況有變並顯示賬面值可能減值, 則 減值測試更為頻密。本集團每年於 三月三十一日進行商譽減值測試。 為進行減值測試, 因業務合併所得 之商譽, 從收購日期起被分配至本 集團之規金產生單位, 不論本 集團之其他資產或負債是否被分配 到該等或該組單位。

減值乃透過評估與商譽有關之現金 產生單位(或一組現金產生單位)之 可收回金額而釐定。減值虧損須於 現金產生單位(或一組現金產生單 位)之可收回金額少於其賬面值時確 認。商譽減值虧損於確認後不會在 其後期間撥回。

當商譽已獲分配至一個現金產生單 位(或一組現金產生單位),而當該 單位之部分業務被出售時,有關出 售業務之附帶商譽計入該業務之賬 面值內,以釐定該項出售之盈虧。 在此等情況下,出售之商譽乃根據 所保留之現金產生單位業務及部分 之相對價值計量。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 Fair value measurement

The Group measures its financial assets at fair value through profit or loss at fair value at the end of each reporting period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2. 重大會計政策概要(續)

2.5 公允值計量

本集團於各報告期末按公允值計量 其按公允值計入損益之金融資產。

公允值是於計量日市場參與者間於 有秩序交易中出售資產所收取或轉 讓負債須支付之價格。公允值計量 假設出售資產或轉讓負債之交易於 該要市場之情況下,則於對該資產 或負債之主要市場或最有利之市場難行。本無 或須可於該主要市場或最有利市場 進行交易。資產或負債之公允值乃 採用市場參與者為資產或負債定價 時所用之假設計量,並假設市場參 與者按其最佳經濟利益行事。

非金融資產之公允值計量計入市場 參與者透過使用其資產之最高及最 佳用途或透過將資產出售予將使用 其最高及最佳用途之另一名市場參 與者而產生經濟利益之能力。

本集團採用在各情況下適當之估值 技巧,而其有足夠資料以計量公允 值,以盡量使用相關可觀察輸入數 據及盡量避免使用不可觀察輸入數 據。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2. 重大會計政策概要(續)

2.5 公允值計量(續)

- 所有於財務報表內計量或披露公允 值之資產及負債,乃按對整體公允 值計量而言屬重大之最低等級輸入 數據分類至下述之公允值層級:
- 級別一 根據同類資產或負債在 活躍市場上之報價(未經 調整)
- 級別二 根據對公允值計量而言 屬重大之最低等級輸入 數據乃可直接或間接觀 察之估值技巧
- 級別三 根據對公允值計量而言 屬重大之最低等級輸入 數據乃不可觀察之估值 技巧

就於財務報表按經常基準確認之資 產及負債而言,本集團於各報告期 末(根據對整體公允值計量而言屬重 大之最低等級輸入數據)重新評估分 類以釐定層級中之各等級有否出現 轉移。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.6 Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cashgenerating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years.

2.6 非金融資產之減值

除存貨、遞延税項資產及金融資產 外,倘資產有減值跡象或須每年進 行減值測試,則估計該資產之可收 回金額。資產之可收回金額為資產 或現金產生單位之使用價值及其公 允值減出售成本兩者中之較高者, 並視乎個別資產而釐定,除非該資 產並無產生大致獨立於其他資產或 資產組別之現金流入,於此情況下 就資產所屬之現金產生單位釐定可 收回金額。

僅在資產賬面值超出其可收回金額 之情況下,方會確認減值虧損。評 估使用價值時,估計未來現金流量 採用反映現行市場對貨幣時間值及 資產特有風險之評估之税前貼現率 折算至現值。減值虧損於其產生期 間之損益表內在與減值資產之功能 一致之該等開支類別中扣除。

於各報告期末會評估是否有任何跡 象顯示先前確認之減值虧損可能不 再存在或可能已減少。倘出現有關 跡象,則估計可收回金額。先前就 商譽以外資產確認之減值虧損僅在 用以釐定該資產之可收回金額之估 計出現變動時方會撥回,惟有關數 額不得高於倘於過往年度並無就該 資產確認減值虧損而原應釐定之賬 面值(扣除任何折舊/攤銷)。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.8 Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repair and maintenance costs are charged to the statement of profit or loss during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. Their estimated useful lives are as follows:

Leasehold improvements	2 to 10 years
Furniture, fixtures and office equipment	3 to 10 years
Motor vehicles	3 to 6 years

Plant and machinery and 3 to 10 years demonstration machinery

僅當有關該項目之未來經濟利益將 流向本集團及該項目之成本能夠可 靠計量時,其後成本計入資產之賬 面值或確認為獨立資產(如適用)。 被取代部分之賬面值會終止確認。 所有其他維修及保養成本會於產生 之財政期間在損益表內扣除。

折舊乃採用物業、廠房及設備各自 之估計可使用年期將各項目之成本 按直線法撇銷至其剩餘價值計算。 各項目之估計可使用年期如下:

租賃物業裝修	2至10年
傢俬、裝置及	3至10年

SUMMARY OF SIGNIFICANT ACCOUNTING 2. **POLICIES** (continued)

2.8 Property, plant and equipment and depreciation (continued)

The assets' residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amounts and are recognised in the statement of profit or loss.

Intangible assets (other than goodwill) 2.9

Customer relationships and distribution agreements are shown at historical cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition. The Group's intangible assets have finite useful lives and are carried at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation of customer relationships and distribution agreements is calculated using the straight-line method to allocate the cost over their estimated useful lives as follows:

Customer relationships	3 to 4 years	客戶關係	3至4年
Distribution agreements	3 years	分銷協議	3年

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.10 Leases (applicable from 1st April 2019)

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for shortterm leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Office properties and warehouses 1 to 3 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

2.10 Leases (applicable from 1st April 2019) (continued)

Group as a lessee (continued)

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

2.10 Leases (applicable from 1st April 2019) (continued)

Group as a lessee (continued)

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of office properties and warehouses (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases that are considered to be of low value. Lease payments on short-term leases and leases of lowvalue assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative standalone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in other income and gains in the statement of profit or loss due to its non-operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Group as a lessor (continued)

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases. At the commencement date, the cost of the leased asset is capitalised at the present value of the lease payments and related payments (including the initial direct costs), and presented as a receivable at an amount equal to the net investment in the lease.

2.11 Leases (applicable before 1st April 2019)

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases. Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing.

2.11 Leases (applicable before 1st April 2019) (continued)

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to the statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the statement of profit or loss on the straight-line basis over the lease terms.

2.12 Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.12 Investments and other financial assets (continued)

Initial recognition and measurement (continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.12 Investments and other financial assets (continued)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with positive net changes in fair value presented as other income and gains and negative net changes in fair value presented as other expense in the statement of profit or loss.

2.13 Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates, if and to what extent, it has retained the risks and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.14 Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

一般方法

預期信貸虧損於兩個階段進行確 認。對於自初步確認後並無顯著增 加的信貸風險,預期信貸虧損就可 能於未來12個月內(12個月預期信 貸虧損)出現的違約事件計提撥備。 對於自初步確認後有顯著增加的信 貸風險,須在信貸虧損風險預期的 剩餘年期計提虧損撥備,不論違約 事件於何時發生(存續期預期信貸虧 損)。

於各報告日期,本集團於評估自初 始確認後金融工具的信貸風險是否 顯著增加時,本集團將於報告日期 金融工具發生之違約風險與初始確 認日起金融工具發生之違約風險與初始確 行比較,本集團會考慮合理且可支 持的資料,包括無需付出不必要的 成本或努力而可得之歷史及前瞻性 資料。

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.14 Impairment of financial assets (continued)

General approach (continued)

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

For finance lease receivables included in trade and other receivables that contain a significant financing component, the Group chooses as its accounting policy to adopt the general approach in calculating ECLs with policies as described above.

2.14 金融資產減值(續)

一般方法(續)

本集團將合約付款逾期90日的金 融資產視作違約。然而,於若干情 況下,當內部或外部資料顯示本集 團不可能在本集團採取任何信貸提 升安排前悉數收回未償還合約金額 時,本集團亦可能認為該金融資產 違約。當合理預期不會收回合約現 金流量時,金融資產將予撤銷。

按攤銷成本計量的金融資產,在一 般方法下可能會發生減值,並且除 了採用簡化方法的貿易應收款項(以 下詳述)外,彼等在以下階段分類用 於預期信貸虧損計量。

- 第一階段一 金融工具自初始確認以 來信貸風險未顯著增 加,且其虧損撥備相等 於12個月預期信貸虧 損
- 第二階段 金融工具自初始確認後 信貸風險顯著增加,但 並非信貸減值金融資產 且其虧損撥備相等於終 身預期信貸虧損
- 第三階段 於報告日期信貸減值的 金融資產(但非購買或 原始信貸減值),其虧 損撥備相等於終身預期 信貸虧損

就計入包含重大融資成分的貿易及 其他應收款項之融資租賃應收款項 而言,本集團會計政策選擇採用一 般方法根據上述政策進行預期信貸 虧損計量。

2.14 Impairment of financial assets (continued)

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

2.15 Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

簡化方法

對於不包含重大融資成分的貿易應 收款項,或本集團採用實際權宜之 計,不會就重大融資成分的影響調 整時,本集團採用簡化方法進行預 期信貸虧損計量。根據簡化方法, 本集團不會追蹤信貸風險的變化, 而是於各報告日期進行終身預期信 貸虧損確認虧損撥備。本集團已根 據其歷史信貸虧損經驗建立撥備矩 陣,並根據債務人及經濟環境的前 瞻性因素作出調整。

2.15 金融負債

初步確認及計量

金融負債於初步確認時分類為貸款 及借貸或應付款項(倘適用)。

所有金融負債初步按公允值確認, 而貸款及借貸,及應付款項則於扣 除直接應佔交易成本後確認。

本集團之金融負債包括貿易應付款 項及其他應付款項以及借貸。

其後計量

2.15 Financial liabilities (continued)

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

2.16 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

2.17 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.15 金融負債(續)

按攤銷成本計量之金融負債(貸款及 借貸)

於初步確認後,借貸其後採用實際 利率法按攤銷成本計量,惟倘貼現 之影響並不重大,則在此情況下按 成本列賬。終止確認負債及透過實 際利率攤銷過程中產生之盈虧會於 損益表內確認。

計算攤銷成本時會考慮收購所產生 之任何折讓或溢價,亦包括作為實 際利率不可或缺部分之費用或成 本。實際利率攤銷計入損益表內之 財務費用。

2.16 終止確認金融負債

金融負債在該負債項下之責任獲履 行、被取消或到期時終止確認。

倘同一貸款人以另一項具重大條款 差異之金融負債取代現有金融負 債,又或現有負債之條款被大幅修 改,則該等取代或修改被視為終止 確認原負債並確認新負債,而有關 賬面值之差額於損益表內確認。

2.17 抵銷金融工具

當現時存在一項可依法強制執行之 權利可抵銷已確認金額,且亦有意 以淨額基準結算或同時變現資產並 償付負債時,則金融資產及金融負 債可予抵銷,而其淨額於財務狀況 表內呈報。

2.18 Share capital

Ordinary shares and non-redeemable preference shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.19 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling price less any estimates costs to be incurred to completeness and disposals.

2.20 Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amount of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

2.21 Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

The Group provides for warranties in relation to the sale of machinery and the provision of maintenance services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

2.22 Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of each reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

2.22 Income tax (continued)

 in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.23 Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

2.24 Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Revenue from contracts with customers (continued)

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

(a) Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer.

Incidental to the sale of machinery, the Group also provides installation services in accordance with the terms of the contract with customers. These services, which are not separately provided by the Group and are bundled together with the sale of machinery to customers, are highly interrelated with the sale of machinery and combining them into a functional machinery that the customers have contracted to receive. Accordingly, revenue from the sale of machinery with installation services is recognised at the point in time when the respective installation services are completed.

Commission, service and management fee income are recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group. Given that these services are generally completed within a short period of time, the revenue from the provision of these services is recognised when the services have been rendered.

Revenue from other sources

Finance leasing income is recognised on an accrual basis using the effective interest method by applying the rate that discounts the estimated future cash receipts through the expected life of the net investment of the finance lease or a shorter period, when appropriate, to the net carrying amount of the net investment of the finance lease.

Rental income is recognised on a time proportion basis over the lease terms.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

2.25 Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

2.26 Share-based payments

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of sharebased payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, further details of which are given in note 20(b) to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equitysettled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

2.26 Share-based payments (continued)

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because nonmarket performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilution effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

2.27 Employee benefits

(a) Employees' leave entitlement

Employees' entitlement to annual leave and long service leave is recognised when it accrues to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

2.28 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.29 Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting.

Proposed final dividends are disclosed in the notes to the financial statements.

2.30 Foreign currency translation

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. 2.30 Foreign currency translation (continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain group companies are currencies other than Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the weighted average exchange rates for the year.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the "Cumulative translation adjustments" under reserves. On disposal of an operation with currency other than Hong Kong dollar, the component of other comprehensive income relating to that particular operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of certain group companies with functional currency other than Hong Kong dollar are translated into Hong Kong dollars at exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of these group companies which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

3. FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Risk management is carried out by the finance department of the Company under policies approved by the board of directors. The finance department identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The board of directors provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, the use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

(a) Market risk

(i) Foreign exchange risk

The Group operates principally in Hong Kong and Mainland China and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the United States dollar (the "US dollar"), Japanese Yen, and Renminbi ("RMB"). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

3.1 Financial risk factors (continued)

- (a) Market risk (continued)
 - (i) Foreign exchange risk (continued)

Management has set up a policy to require entities within the Group to manage their foreign exchange risk against their functional currencies. Foreign exchange risk arises when future commercial transactions or recognised assets or liabilities are denominated in a currency that is not the entity's functional currency.

The Hong Kong dollar is pegged to the US dollar ("US\$") at a range of rates between 7.75 and 7.85, and therefore, the foreign exchange exposure between the US dollar and the Hong Kong dollar is limited.

The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. 3. 財務風險管理(續)

3. FINANCIAL RISK MANAGEMENT (continued)

3.1 Financial risk factors (continued)

- (a) Market risk (continued)
 - (ii) Cash flow and fair value interest rate risk

As the Group has no significant interestbearing assets at floating rates except for cash and cash equivalents, its income and operating cash flows are substantially independent of changes in market interest rates.

The cash and cash equivalents earn interest at floating rates and expose the Group to cash flow interest rate risk.

The finance lease receivables earn interest at fixed rates and expose the Group to fair value interest rate risk.

The interest rate risk from financial liabilities arises from borrowings. Borrowings that are subject to variable rates expose the Group to cash flow interest rate risk.

(b) Credit risk

Credit risk arises from cash and cash equivalents, trade receivables, finance lease receivables and certain other receivables.

The Group has policies in place to ensure that sales are made to customers with an appropriate financial strength and an appropriate percentage of down payment. It also has other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group regularly reviews the recoverable amount of each individual receivable to ensure that adequate loss allowance is made for irrecoverable amounts. The Group implements its industry risk management system according to its plan based on the actual situation with a focus on industry research, customer credit rating, and understanding of the lessee's operations and financial condition. The Group also obtained deposits from lessees as disclosed in note 26 to the consolidated financial statements. The Group has no significant concentrations of credit risk, with exposure spreading over a number of counterparties and customers.

No credit limits were exceeded during the reporting period, and management does not expect any losses from non-performance by counterparties. The Group does not hold any collateral as security except for finance leasing operation, for which in the event of default, the Group may demand return of finance lease assets, repossession of finance lease assets or disposal of finance lease assets, whichever appropriate.

3. FINANCIAL RISK MANAGEMENT (continued)

3.2 Capital risk management (continued)

During the year ended 31st March 2020, the Group's strategy, which was unchanged from last year, was to maintain net cash position. Net cash position is calculated as cash and cash equivalents less bank and other borrowings and lease liabilities. The net cash positions as at 31st March 2020 and 2019 were analysed as follows:

於截至二零二零年三月三十一日止年 度,本集團沿用去年之策略,維持淨 現金狀況。淨現金狀況乃按現金及現 金等值項目減銀行及其他借貸以及租 賃負債計算。於二零二零年及二零 一九年三月三十一日之淨現金狀況分 析如下:

Note:

The Group has adopted HKFRS 16 using the modified retrospective approach and the effect of the initial adoption is adjusted against the opening balances as at 1st April 2019 with no adjustments to the comparative amounts as at 31st March 2019. This resulted in a decrease in the Group's net cash from HK\$619,260,000 to HK\$603,416,000 on 1st April 2019 when compared with the position as at 31st March 2019.

附註:

本集團採用經修訂追溯法採納香港財務報告 準則第16號,而初始應用之影響會根據二 零一九年四月一日之年初結餘作出調整, 而不會對二零一九年三月三十一日之比較 金額作出調整。因此,與二零一九年三月 三十一日之狀況相比,本集團現金淨額由 619,260,000港元減少至二零一九年四月一 日 603,416,000港元。

3. FINANCIAL RISK MANAGEMENT (continued)

3.3 Fair value and fair value hierarchy of financial instruments

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, trade and other receivables, trade and other payables and bank and other borrowings approximate to their carrying amounts largely due to short term maturities of these instruments.

The Group's corporate finance team is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the chief financial officer and the audit committee. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of finance lease receivables have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The carrying amounts of finance lease receivables approximate to their fair values.

3. 財務風險管理(續)

3.3 金融工具之公允值及公允值等級

管理層已評定,現金及現金等值項 目、抵押按金、貿易應收款項及其 他應收款項、貿易應付款項及其他 應付款項以及銀行及其他借貸之公 允值與賬面值相若,主要由於該等 工具於短期內到期。

本集團之企業融資團隊負責釐定金 融工具公允值計量之政策及程序。 企業融資團隊直接向財務總監及審 核委員會匯報。於各報告日期,企 業融資團隊會分析金融工具價值之 變動及釐定估值所用之主要輸入數 據。財務總監會審閱並批准估值, 且每年兩次就中期及年度財務申報 與審核委員會討論估值過程及結果。

金融資產及負債之公允值按自願雙 方目前進行交易(而非強逼或清算銷 售)時可交換之工具金額計入。估計 公允值所用之方法及假設如下:

融資租賃應收款項之公允值按適用 於具有類似條款、信貸風險及餘下 年期之工具之現行利率貼現預期未 來現金流量計算。融資租賃應收款 項之賬面值與公允值相若。

3. FINANCIAL RISK MANAGEMENT (continued)

3.3 Fair value and fair value hierarchy of financial instruments (*continued*)

The Group did not have any financial liabilities measured at fair value as at 31st March 2020 and 2019.

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities (2019: Nil).

4. CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATES

Estimates and judgements are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom reflect the related actual results. The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

4.1 Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by customer type).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At the reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

 - **3.3** 金融工具之公允值及公允值等級 (續)

於二零二零年及二零一九年三月 三十一日,本集團並無任何以公允 值計量之金融負債。

年內,就金融資產及金融負債而言, 級別一與級別二公允值計量之間並 無轉移,級別三亦無公允值計量轉 入或轉出(二零一九年:無)。

4. 關鍵會計估計及判斷

本集團根據過往經驗及其他因素(包括對在 有關情況下相信屬合理之未來事件之預期) 所作之估計及判斷。

本集團對未來作出估計及假設。所得之會 計估計如其定義,很少會反映相關實際結 果。存在重大風險導致須對下一財政年度 資產及負債賬面值作出重大調整之估計及 假設討論如下。

4.1 貿易應收款項預期信貸虧損撥備

本集團使用撥備矩陣計算貿易應收 款項的預期信貸虧損。撥備率乃基 於具有類似虧損模式(如客戶類型) 的不同客戶分部組合逾期日數釐定。

撥備矩陣初步基於本集團過往觀察 所得違約率而釐定。本集團將調整 矩陣,藉以按前瞻性資料調整過往 信貸虧損經驗。於報告日期,過往 觀察所得違約率將予更新,並會分 析前瞻性估計變動。

31st March 2020 二零二零年三月三十一日

4. CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

4.1 Provision for expected credit losses on trade receivables (continued)

The assessment of the correlation among historical observed default rates and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forward-looking information. The Group's historical credit loss experience and forwardlooking estimates may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 16 to the financial statements.

4.2 Impairment assessment of goodwill

The Group tests annually whether goodwill is impaired in accordance with the accounting policies stated in note 2.4 to the financial statements. For the purposes of impairment testing, goodwill acquired has been allocated to an individual cash-generating unit which is reviewed for impairment based on forecast operating performance and cash flows. The recoverable amount of an asset or a cash-generating unit has been determined based on value in use calculations. Cash flow projection is prepared on the basis of reasonable assumptions reflective of prevailing and future market conditions, and are discounted appropriately.

4.3 Provision for expected credit loss on other financial assets included in trade and other receivables

The ECLs for other financial assets included in trade and other receivables apart from the financial assets mentioned in note 4.1 above are based on assumptions about probability of default and expected loss rates. The Group uses judgement in making these assumptions and selecting inputs to the ECL calculations, based on the Group's historical loss record, current conditions as well as forward-looking information.

4.1 貿易應收款項預期信貸虧損撥備 (續)

> 評估歷史觀測違約率與預期信貸虧 損之相關性屬重大估算。預期信貸 虧損額對若干情況及前瞻性資料之 變動敏感。本集團之歷來信貸虧損 經驗及前瞻性估計數字,亦未必反 映客戶日後之實際違約狀況。就本 集團貿易應收款項而言有關預期信 貸虧損之資料,於財務報表附註16 中披露。

4.2 商譽減值評估

本集團按照財務報表附註2.4所列 之會計政策,每年測試商譽有否出 現任何減值。就減值測試而言,所 收購商譽乃分配至個別現金產生單 位,而有關單位乃按預測營運表現 及現金流量檢討減值。資產或現金 產生單位之可收回金額按使用價值 計算法釐定。現金流量預測按可反 映現行及未來市況之合理假設編 製,並在適當時進行貼現。

4.3 計入貿易及其他應收款項的其他金 融資產之預期信貸虧損撥備

除上文附註4.1所述之金融資產外, 計入貿易及其他應收款項的其他金 融資產之預期信貸虧損乃按有關違 約或然率及預期虧損率之假設值計 算。本集團為預期信貸虧損計算訂 定此等假設及選取輸入值時,按本 集團歷來虧損記錄、現狀及前瞻性 資料運用判斷。

Commission and other service income

The performance obligation is satisfied over time as services are rendered and payment is generally due upon completion of services, except for new customers, where payment in advance is normally required.

The amount of unsatisfied performance obligation principally comprises the balance of contract liabilities as at 31st March 2020 and 31st March 2019, which are expected to be recognised in one year.

5.2 Operating segment information

For management purposes, the Group is organised into two major reportable operating segments — hitech distribution and services, and leasing. The hi-tech distribution and services operating segment derives revenue from the sale of goods, commission and other service income. The leasing operating segment derives revenue from finance lease and operating lease arrangements, and trading of lease assets.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before income tax. The adjusted profit/loss before income tax is measured consistently with the Group's profit/ loss before tax except that finance income, finance costs, fair value gain/loss from the Group's financial instruments as well as corporate and other unallocated expenses are excluded from such measurement.

Segment assets consist primarily of property, plant and equipment, intangible assets, right of use assets, other non-current assets, inventories and trade and other receivables. Unallocated assets comprise pledged deposits, cash and cash equivalents, financial assets at fair value through profit or loss, deferred tax assets and corporate and others.

Hi-tech distribution and services operation cashgenerating unit

The recoverable amount of the hi-tech distribution and services operation cash-generating unit has been determined based on a value-in-use calculation using a pre-tax cash flow projection based on a financial budget covering a five-year period approved by senior management. The pre-tax discount rate applied to the cash flow projection was 14.0% (2019: 14.3%). The growth rate used to extrapolate the cash flows of the hi-tech distribution and services operation cash-generating unit beyond the five-year period was 3% (2019: 3%).

Assumptions were used in the value-in-use calculations of the hi-tech distribution and services operation cashgenerating unit for the years ended 31st March 2020 and 2019. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

Distribution rights — The continuance of the distribution rights for the hi-tech distribution and services operation in the foreseeable future would not need any additional cost or investment.

Budgeted gross margins — The basis used to determine the value assigned to the budgeted gross margins is based on past performance and management's expectations for market development.

Discount rate — The discount rate used is pre-tax and reflects specific risks relating to the unit.

16. TRADE AND OTHER RECEIVABLES (continued)

The leased assets arise from the situations where the Group had already made payments to vendors or suppliers of machinery and equipment, but the terms of the lease contracts of the said machinery and equipment have not commenced. The Group records these paid amounts under leased assets among its current assets as such assets had already been earmarked for leases to customers. Once the terms of a lease contract commence, the Group ceases to recognise the amount relating to the leased assets and to recognise the finance lease receivables due under the lease contract.

(a) Trade and bills receivables, net

The Group's trading terms with its customers of hi-tech distribution and services operation are mainly on letters of credit or documents against payment, and in some cases granting a credit period of 5 to 180 days, except for new customers, where payment in advance is normally required. In respect of the Group's leasing operation, trade receivables are settled based on the terms stipulated in the lease agreements. The Group seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by senior management. Since the Group's trade and bills receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade and bills receivable balances.

(a) 貿易應收款項及應收票據,淨額

本集團與高科技產品分銷及服務業 務客戶進行買賣之條款主要按信用 證或付款交單,而個別客戶會獲授 介乎5日至180日不等之信貸期,惟 新客戶一般須預先付款。就本集團 之租賃業務而言,貿易應收款項乃 根據租賃協議所訂明之條款償還。 本集團尋求對其未收取之應收款 項維持嚴格控制以盡量減低信貸風 險。高級管理層會定期檢討逾期結 餘。由於本集團之貿易應收款項及 應收票據涉及大量不同客戶,故並 無重大集中之信貸風險。本集團並 無就其貿易應收款項及應收票據結 餘持有任何抵押品或其他信用提升 之保障。

The Group has applied the general approach to measure ECLs for finance lease receivables. The Group has conducted an assessment of ECLs according to forward-looking information and used an appropriate model and assumptions in its measurement of ECLs. The assumptions included the future macroeconomic conditions and borrower's creditworthiness (e.g., the likelihood of default by customers and the corresponding losses). As at 31st March 2020, the probability of default applied was 1.1% (2019: 1.6%) and the loss given default was estimated to be 60.2% (2019: 60.2%).

- (c) Where applicable, an impairment analysis is performed on financial assets included in deposits and other receivables at each reporting date by considering the probability of default of comparable companies with published credit ratings. In the situation where no comparable companies with credit ratings can be identified, expected credit losses are estimated by a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forward-looking information, as appropriate. As at 31st March 2020 and 2019, the Group has concluded that the probability of default and loss rate were low and the financial impact of expected credit losses for deposits and other receivables under HKFRS 9 was insignificant for the years ended 31st March 2020 and 2019.

20. SHARE CAPITAL (continued)

(b) Share options of the Company (continued)

The share options are exercisable commencing on the date of grant with a validity period of 10 years from the date of grant (i.e. 7,323,200 and 7,608,000 share options granted on 16th August 2017 and 26th June 2019, respectively). As at 31st March 2020, none of the share options granted have been exercised.

The fair value of the share options granted during the year ended 31st March 2020, determined using a binomial model, was approximately HK\$3,433,000. The Group had recognised a share option expense of HK\$3,433,000 during the year ended 31st March 2020.

The fair value of equity-settled share options granted during the year ended 31st March 2020 was determined as at the date of grant using a binomial model, taking into account the terms and conditions upon which the share options were granted. The following table lists the inputs to the model used:

Expected dividend yield (%)	0.000
Expected volatility (%)	74.808
Risk-free interest rate (%)	1.830
Expected life of share options (year)	10.000

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the share options granted was incorporated into the measurement of fair value.

At the end of the reporting period, the Company had 14,931,200 share options outstanding under the 2014 Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 14,931,200 additional ordinary shares of the Company and additional share capital of HK\$1,493,000 and share premium of HK\$13,139,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 14,931,200 share options outstanding under the 2014 Scheme, which represented approximately 5.5% of the Company's shares in issue as at the date.

At 31st March 2020	於二零二零年三月三十一日	(685)	1,307	191	813

As at 31st March 2020, the Group had unrecognised deferred tax assets of HK\$11,391,000 (2019: HK\$10,473,000), primarily representing the tax effect of cumulative tax losses (subject to agreement by relevant tax authorities) which can be carried forward indefinitely. Deferred tax assets have not been recognised in respect of these losses as they have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

Pursuant to the enterprise income tax law of the PRC, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1st January 2008 and applies to earnings after 31st December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 5% or 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1st January 2008.

於二零二零年三月三十一日,本集團之未 確認遞延税項資產為11,391,000港元(二 零一九年:10,473,000港元),主要指累 計税項虧損(須經相關税務機構同意)之 税務影響,該金額可無限期結轉。由於該 等虧損來自已一段時間錄得虧損之附屬公 司,且認為不大可能有應課税溢利用以抵 銷税項虧損,故並無就該等虧損確認遞延 税項資產。

根據中國企業所得税法,於中國內地成立 之外資企業向海外投資者宣派之股息須繳 納10%預扣税。該項規定由二零零八年一 月一日起生效並適用於二零零七年十二月 三十一日後產生之盈利。倘中國內地與海 外投資者所處司法管轄區訂有税項協定, 則可能應用較低之預扣税税率。就本集團 而言,適用税率為5%或10%。因此,本 集團須負責為於中國內地成立之附屬公司 就由二零零八年一月一日起產生之盈利派 發之股息繳納預扣税。

31st March 2020 二零二零年三月三十一日

25. DEFERRED TAX (continued)

The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately HK\$11,376,000 (2019: HK\$5,827,000) at 31st March 2020. In the opinion of the directors, it is not probable that these subsidiaries will distribute these unremitted earnings that are subject to withholding taxes in the foreseeable future.

25. 遞延税項(續)

與於中國內地附屬公司之投資有關之暫時 差額總額之未確認遞延税項負債總額於二 零二零年三月三十一日約11,376,000港元 (二零一九年:5,827,000港元)。董事認 為,該等附屬公司於可見未來不可能分派 該等須繳納預扣税之未匯出盈利。
